About This Game

Cosmic Kites is a colourful and energetic local multiplayer game where the players control animal spirits, trying to wipe each other out in order to be the last man standing. With rapid moves and split-second decisions, use your tail and an array of offensive and defensive power-ups, such as the energy beam or the spiked shield, in order to turn your opponents into a rain of exploding particles.

The rounds are short, and the tempo constantly high throughout game. Once a round is finished, it takes but seconds to jump into a new game and get back to bashing your friends.

'Easy to pick up - hard to master' has become a bit of a cliché, but nothing explains the core of Cosmic Kites better. With only three buttons to keep track of, it's a no-brainer to involve new and inexperienced players, without them feeling left behind.

Features:

- Fast paced local multiplayer action
- Single player highscore hunting-mode
- Easy to pick up - hard to master
- Various power-ups, including energy beams, exploding plasma balls, spiky shields and more

-
- 6 different game modes
 - Customization options to create your own game modes
 - Loads of different character skins including dragons, warthogs, birds, squids and more
 - Colorful stylish graphics
 - Lots of fancy particles and explosions
 - Music... Loads of music

. Update #8:

Hey, we've heard you!

Join the official MazenGames group on Steam [HERE!](#)

Update #8 is about balancing the last 10 levels.

- LEVEL22: Made some rails wider, one more added checkpoint close to the end of the level
- LEVEL23: Some rails have been made wider, added more rails on one part of the level
- LEVEL24: Rails where you gain height have been widened, spawn rate of balls dropping from the sky has been changed to 2.1 seconds from 1.8 seconds
- LEVEL26: Increased the spike reactivation time, so it now takes a longer time for some of the spikes to reactivate
- LEVEL27: Widened some rails
- LEVEL29: Removed some of the spikes, increased the width of some rails
- Version is now changed to 1.5.3
